Question

1. What were the strong points of the course?
2. What were the weak points of the course?
3. What should the instructor do to improve their teaching?
4. What is your overall opinion of this course?

Comment

1. Dr. Ransom's teaching method, course materials, and willingness to help
 2. N/A
 3. Honestly not much. Maybe more interactive class activities every once in a while to test our knowledge and opportunity for extra credit
 4. Wouldn't have wanted to take this class with any other professor.
1. The vocational skills learned.
 2. Some of the readings I felt were on the weaker side.
 3. Encourage earlier independence on assignments for coding.
 4. Professor Ransom was amazing. He handled this class well and could help with everything involved while giving us freedom to learn on our own about topics that interested us.
1. In class labs and in class discussions
 2. Not enough in class examples
 3. Incorporate more in class examples of similar problems that will be on tests.
 4. Amazing course, amazing professor.
1. - Structured class and lectures
- Fair grading
- Varied content
 2. - The reading quizzes were sometimes unrelated to the class topic and there were repeat questions on some.
- The amount of work required is sometimes too high. There's multiple assignments a week. But as long as they're participation or easy then it's not a problem.
 3. - Maybe approach it from a more introductory level, but overall not much to improve!
 4. It required a lot of work but is useful, interesting, and a fair grade.
- 1.
 - 2.
 3. I prefer Kennedy's Guide to Econometrics, 6th Ed. I find it a more accessible text book.
 4. Overall, a very good course. I liked it a lot.
