5. If you have additional comments about your participation in this course or suggestions about how to make the course more engaging, please share them here:

> I wish we would go over the reading quizzes in class -- sometimes the answers were not very clear to me

> Nothing major but i would have preferred to spend time on STATA or R than Julia. Just my personal preference but i did learn a lot.

---

9. If you have additional comments or suggestions about how the course or the course website/Canvas was organized, please share them here:

> This was one of the most organized courses I have ever had the chance to take -- I wish the reading's were available in pdf form though, not every

manuscript was easily available especially when off campus

Github was more helpful than Canvas in this case.

15. If you have additional comments or suggestions about the assignments, reading materials, discussions, online materials, projects, rehearsals, performances, exams, or other learning components in this course, please share them here:

I wish you would let us code in different languages, as I do not believe I will use Julia going forward.

21. If you have additional comments or suggestions regarding the learning environment in this course, please share them here:

Sometimes, it did feel like some students were more included than others - it almost felt like the professor had 'friends' in the class, for a lack of better words.

22. If you have comments or suggestions regarding inclusion, diversity, and equity in this class, please share them here. These might include comments or suggestions regarding the sources and/or perspectives of material covered in class, student-instructor interactions, or any other aspect of the course that you found particularly positive or negative.

Overall positive experience.

24. Which elements of this course had the most positive impact on your engagement and/or learning?

I really enjoyed the lectures, also the homework was very challenging but rewarding

This course was one of the most organized course i have taken in a long time. But a but overwhelming sometimes.

25. Which elements of this course could be improved to have a more positive impact on your engagement and/or learning?

The homework was extremely difficulty, I almost think the course would be best served if there was a recitation or some kind of coding boot camp outside of office hours
