

# Course Reflection Survey

The UNIVERSITY of OKLAHOMA

Term: Fall 2024

Course: ECON 6343-001: Econometrics III

Instructor: Tyler Ransom

Instructional Method: In person full contact time

Total Responses: 7 out of 10

## Section 1 - Student Engagement

1. How many hours per week did you spend engaged with this class (attending class, participating on discussion boards, reading, studying, projects, etc.)?

2. Approximately how many times did you interact with *Tyler Ransom* outside of class (e.g. by email, office hours, online video meeting, etc.)?

3. Why did you enroll in this course? (choose all that apply)

---

4. What grade do you expect to earn in this course?

---

5. If you have additional comments about your participation in this course or suggestions about how to make the course more engaging, please share them here:

[View Comments](#)

---

## Section 2 - Course Organization

---

6. To what extent were the expectations and grading scheme for assignments and the overall course made clear?

---

7. To what extent did *Tyler Ransom* appear to be organized and prepared for student interactions?

---

8. To what extent was the course website/Canvas helpful?

9. If you have additional comments or suggestions about how the course or the course website/Canvas was organized, please share them here:

### Section 3 – Student Learning Experience

10. To what extent were the reading assignments and/or online instructional materials beneficial to your learning?

11. To what extent did *Tyler Ransom* explain or demonstrate the larger purpose or value of the material covered in this course?

12. To what extent did *Tyler Ransom* use a variety of examples or approaches to illustrate concepts?

13. How often did the assignments, projects, discussions, rehearsals, performances, and/or exams seem connected to the course content and goals?

14. In general, the following statement best describes my experience of this course up to this point is:

15. If you have additional comments or suggestions about the assignments, reading materials, discussions, online materials, projects, rehearsals, performances, exams, or other learning components in this course, please share them here:

## Section 4 - Learning Environment

16. To what extent did you feel supported and empowered as you worked to reach the academic goals in this course?

17. How often did you receive feedback on assignments within a timeframe that made it useful for future work?

18. How helpful did you find the feedback on the work you completed in this course?

19. How often did you feel safe, heard, and included in class discussions and activities?

20. To what extent did you feel respected, both as an individual student and as a person with your social identities?

21. If you have additional comments or suggestions regarding the learning environment in this course, please share them here:

[View Comments](#)

## Section 5 – Course Impact on Learning

22. Which of the following skills do you think this course helped you develop or improve: (choose all that apply)

23. Which elements of this course had the most positive impact on your engagement and/or learning?

[View Comments](#)

24. Which elements of this course could be improved to have a more positive impact on your engagement and/or learning?

[View Comments](#)

## Comments

5. If you have additional comments about your participation in this course or suggestions about how to make the course more engaging, please share them here:

I have no comments. This is the best Econometrics class I have taken in my life!!

The way Dr. Ransom prepared the class material is outstanding and will engage anyone during the class. I have no comment for improvement.

9. If you have additional comments or suggestions about how the course or the course website/Canvas was organized, please share them here:

He has a very organized course structure.

I really liked that the main course contents were on github. It made me to become familiar with it and use it for other courses. Thanks.

Dr. Ransom did an outstanding job organizing the course materials and the Canvas website also github. Everything was structured clearly, making it easy to follow the schedule, access resources, and complete assignments.

15. If you have additional comments or suggestions about the assignments, reading materials, discussions, online materials, projects, rehearsals, performances, exams, or other learning components in this course, please share them here:

We did very elaborate coding in this class. But Dr. Ransom made everything seem very doable for us. I cannot believe that I can write extensive Julia codes now. Apart from that, I learned a good amount of econometrics which I will actually use in my research in future.

The assignments and reading materials were well-designed and effectively complemented the course content. The assignment and reading quiz were particularly engaging and provided valuable opportunities to apply concepts. The online materials and coding solutions were clear and accessible, contributing to a smooth learning experience. I have no additional suggestions for improvement

21. If you have additional comments or suggestions regarding the learning environment in this course, please share them here:

He always encouraged us to ask more questions about the course material and always appreciated us.

The learning environment in this course was excellent. I have no additional suggestions for improvement

23. Which elements of this course had the most positive impact on your engagement and/or learning?

Easy to approach for doubts. Sincere and fruitful efforts at explaining concepts that were difficult to grasp. Very cooperative.

He made an effort to learn our names and how they were pronounced. This made me feel very seen and heard in his class as an international student. He made sure that a concept is perfectly clear to each one of us, before proceeding to the next topic.

I appreciate the idea of using AI tools because I used to struggle in programming since bachelor but with somehow being forced to use AI and pay attention to its explanations I am now more motivated to learn more and use more programming skills I have learnt this semester.

The most positive element of this course was the emphasis on using Julia to solve assignments. It provided a hands-on learning experience, helping me develop strong practical skills in programming and econometrics

24. Which elements of this course could be improved to have a more positive impact on your engagement and/or learning?

I don't think anything needs to be improved in this course. He is the best!

Personally it was a bit difficult for me to connect what we had on slides and what we should do in coding. I know that the connections were stated in class but probably more focusing on it can be more impactful.

I don't think it requires any improvements. The course is above par.
